Sad to see you go!:-)

A whirlwind is described as "a very powerful wind that spins extremely fast and something that happens very quickly and unexpectedly, so that the people involved have little control of what happens". Looking at this definition, the experience at Metro Minds during the past 6 months were very close to this description; we spun fast into a new dimension of business with our great supporting clients. We are left with no words and an overwhelming feeling of gratuity and thanks to all our clients. We were faced with the good, bad and ugly and can say that we learnt from all of these aspects! We are turning 5 this year and can only say that up to now, this ride has been everything we are about – passion, fun and utmost integrity. I want to close off with a quote that reminded me of what is to come.... "Last night I lay in bed looking up at the stars in the sky and I thought to myself, where the heck is the ceiling?" The sky really is the limit - thank you for contributing to this! Have a fantastic winter and hope to see you again soon!

Warmest regards, Juliette
